

TESTING CONDITIONS

Independent ball tests conducted at SAN DIEGO Golf Laboratories Inc. present the findings on performance of Vice Golf balls. The data supports that Vice golf balls are on par with and even outperform the equivalent models of Titleist's "#1 ball(s) in Golf" in several categories. The outcome of these tests combined with Vice Golf's more affordable prices will surely make golfers reconsider their ball of choice with more and more making the switch.

The models considered as equivalent models to the Vice Golf ball line up:

Vice PRO – Titleist ProV1

Vice PRO PLUS – Titleist ProV1x

Vice PRO SOFT – Titleist AVX

Vice TOUR – Titleist NXT TOURS

Vice DRIVE – Titleist TRU SOFT

A minimum of eight robotic swing-tests were conducted in similar conditions to obtain representative results between Vice golf balls and the equivalent Titleist ball models. Center-hit averages were calculated and documented. The weather- and wind conditions, robot setting and comments are listed below:
